## **DETAILED ACTION**

### **Status of Claims**

Claims 1-8 are pending.

### ***Specification***

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Information Disclosure Statement***

Receipt of the Information Disclosure Statement filed 01/21/03 is acknowledged and has been entered into the file. A signed copy of the 1449 is attached herewith.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Ohtuka et al., (U.S. Patent number 5,095,016).

Applicants claim compounds of structural formula (I), wherein the substituents are as defined in claim 1.

Art Unit: 1626

'016' discloses the compound Ethanimidamide, N-(6-chloro-3,4-dihydro-3-hydroxy-2,2-dimethyl-2H-1-benzopyran-4-yl)-N'-cyano-,trans and Propanimidamide, N-(6-bromo-3,4-dihydro-3-hydroxy-2,2-dimethyl-2H-1-benzopyran-4-yl)-N'-cyano-, trans. See column 16, Example 14 and column 19, Example 33 respectively.

***Allowable Subject Matter***

Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Ohtuka et al., the prior art of record, drawn to pharmaceutical compounds and composition teach multiple substitution on the benzofused rings, whereas instant compound claims 2-5 require only one substitution on the benzofused rings. Thus, compound claims 2-5 are neither taught nor anticipated by Ohtuka.
